## Simply gives you more

Consumers are looking for practical appliances that meet their needs. So a good appearance and protection against daily use are just some of the essentials that the appliance industry expects when it comes to powder coating. Jotun Guard Classic delivers on exactly that by providing resistance to corrosion and chemicals, while still maintaining an outward appeal. Created for appliances such as refrigerators, washing machines and dryers, Guard Classic is available in a wide range of colours to meet the needs of these emerging markets.

By consistently delivering good protection that keeps appliances looking good and new, Jotun Guard Classic simply gives you more.

## About Jotun

Jotun is one of the world's leading manufacturers of decorative paints, marine, protective and powder coatings. The Group has 70 companies and 36 production facilities on all continents.

At Jotun Powder Coatings, we are committed to develop, produce and deliver solutions that create value through consistency in application, enhanced appearance and superior durability.

## Stay in touch

Please contact us for more information on Guard Classic. We offer company training on our product portfolio and powder coating technology through a number of powder schools that we run for selected customers. Feel free to contact your local sales representative for more information.

## Striking the right balance

In today's emerging markets, customers are looking for both value and looks when it comes to buying home appliances. In order to meet this need, Jotun has developed Jotun Guard Classic - an optimum product that delivers on good protection and good looks. This cost effective product allows Original Equipment Manufacturers and applicators to meet the industry standards of performance and protection with a wide range of appealing colours.

## An eco-friendly solution

Every time you use Jotun products, you can rest assured that you are working towards a greener, more sustainable future. Environmentally friendly, our powder coatings do not contain solvents, so no amount of Volatile Organic Compounds (VOCs) are released into the air. Oversprayed powder can be recycled with minimal wastage, and disposal is easy and safe. In addition, all Jotun Powder Coatings' products are lead-free.
